Description

Features:

- Compatible with many GF-01 chassis Hop Up Option and spare parts.
- The 6WD chassis employs 3 differential gears to transmit power from the front-center-mounted motor to all of the model's wheels. These differentials are encased in the durable main chassis.
- 6-wheel independent double-wishbone suspension is paired with friction dampers.
- Brand-new polycarbonate body inspired by the classic Bullhead monster truck.
- The kit manual build creates a front wheel-steering model. It also includes instructions to re-assemble it into a 4WS model with steerable rear wheels.

Specifications:

- Requires 2-channel radio with ESC, & 7.2volt battery with charger.
- Requires Tamiya Polycarbonate paint to paint the body. (sold separately)
- R/C model assembly kit. Length: 420mm, width: 270mm, height: 280mm
