Description

If you've got a passion for absolutely insane wheelie-popping action, extreme speeds, and mind-blowing acceleration, you NEED to take a good, hard look at the amazing Dementor XP 6S stunt truck from Team Corally! Fitted with a 2050KV motor that can take up to 6S power, the Dementor will blow away your friends with longer and higher jumps, higher top speeds, and extreme wheelie action!

With a super-durable, all-metal four-wheel drivetrain, fully independent suspension, short wheelbase racing chassis, and aerodynamic racing design, this is the ultimate stunt basher truck for anyone looking for fun!

Capable of 2S-6S operation, the Kronos XP arrives completely assembled and ready to run. Simply add 4 AA transmitter batteries and a suitable battery and charger for the ultimate in speed, performance, durability and handling.

For the complete story and all of the details on the Dementor XP, [CLICK HERE](#)

Features:

- Pre-built racing style stunt truck with electronics, bodyshell and tires installed
- Team Corally TOROX 185 ESC 2-6S with LiPo protection (programmable)
- Team Corally Kuron 2050kV 4-pole brushless motor 2-6S
- Varioprop CR-7220-MG High Torque Digital Servo, Metal Gear, 20 Kg Torque
- Aluminum servo arm
- Ergonomic Varioprop S2R transmitter, with interference-free 2.4GHz technology
- Separate splash-proof and dustproof electronic box with transponder mount
- Adjustable battery holder for all common LiPo batteries
- Full set of ball bearings, rubber sealed
- Hardened steel spur gear and motor pinion
- Three sealed metal differentials individually filled with silicone oil
- Quick + easy diff access
- 2-piece aluminum motor holder with composite gear cover
- Complete metal drive train
- Steel front CVD joints
- Aluminum 17mm drive hexes
- Oil-filled threaded 16mm aluminum Big Bore shocks
- Team Corally SPL shock spring perches locking system
- Milled aluminum shock towers, 5mm rear / 4mm front
- Independent Pivot Ball front suspension
- Independent double wishbone rear suspension
- Aluminum suspension mounts with composite cover
- Full set of machined steel turnbuckles with 7mm hexes
- Team Corally RSP anti-roll bar system, front + rear
- Aluminum racing-style short wheelbase chassis plate
- Reinforced chassis side guards with integrated body protection
- Front bumper with chassis protection
- Adjustable wheelie bar
- Pre-glued high-speed low-profile tires on black multi-spoke nylon rims
- Sturdy, elaborately printed polycarbonate body
- 110+ km/h (70+ MPH) possible

Specifications:

- Scale: 1/8 Scale
- Length: 565 mm
- Width: 455 mm
- Height: 210 mm
- Wheelbase: 327 mm
- Weight: 4800 g
- Transmission: 4WD Shaft Driven
- Motor Type: 2050kV 2-6S 4-pole brushless motor
- ESC Type: Waterproof 7.2 - 22.2 V brushless - programmable with LiPo cut off
- Servo Type: Digital - Metal Gear - 20 Kg Torque
- Max. Speed: 110+ km/h (70+mph)

Required items:

Four (type AA) batteries, 7.2-22.2V LiPo battery with XT90-connector, compatible charger
