### Description

If you're looking for the toughest, roughest, and baddest machine on the planet, get your hands on the Kronos monster truck! With capacity for 6S LiPo power and a 2050KV motor, it's ideal for massive air and crazy-fast speeds!

With an ultra-durable, all-metal four-wheel drivetrain, fully independent suspension, race-inspired off-road chassis, and pro-level electronics, this is the ultimate basher truck for anyone looking for fun!

Capable of 2S-6S operation, the Kronos XP arrives completely assembled and ready to run. Simply add 4 AA transmitter batteries and a suitable battery and charger for the ultimate in speed, performance, durability and handling.

**Kronos XP Features:**

- Pre-built racing style monster truck with electronics, bodyshell and tires installed
- Team Corally TOROX 185 Amp ESC 3-6S with LiPo protection (programmable)
- Team Corally Kuron 2050kV 4-pole brushless motor 2-6S
- Varioprop CR-7220-MG High Torque Digital Servo, Metal Gear, 20 Kg Torque
- Aluminum servo arm
- Ergonomic Varioprop S2R transmitter, with interference-free 2.4GHz technology
- Separate splash-proof and dustproof electronic box with transponder mount
- Adjustable battery holder for all common LiPo batteries
- Full set of ball bearings, rubber sealed
- All transmission ball bearings are 8x16x5mm
- Hardened steel spur gear and motor pinion
- Three silicone fluid-filled + sealed metal differentials with quick access design
- 2-piece aluminum motor holder with composite gear cover
- Complete metal drive train
- Steel front CVD joints
- Aluminum 17 mm drive hexes
- Oil-filled threaded 16 mm aluminum Big Bore shocks
- Shock spring perches locking system
- CNC aluminum shock towers, 5mm rear / 4mm front
- Independent Pivot Ball front suspension
- Independent double wishbone rear suspension
- Reinforced truck front steering blocks and rear hubs
- Aluminum suspension mounts with composite cover
- Full set of machined steel turnbuckles with 7mm hexes
- Individually adjustable chassis and steering geometry
- Team Corally RSP anti-roll bar system, front + rear
- Aluminum chassis plate
- Bash-proof double chassis brace system
- Front bumper with chassis protection
- Centre Roll cage mount
- Reinforced High Downforce Wing + Wing Holder
- Pre-glued all-terrain chunky block pattern tires on black 7-spoke nylon rims
- Sturdy, elaborately printed polycarbonate body
- Huge selection of custom tuning products available
- 110+ km/h (70+ mph) possible

### Specifications:

- Scale: 1/8 Scale
- Type: Electric Powered 4WD Monster Truck RTR - 6S Brushless Power
- Wheelbase: 384 mm
- Length: 590 mm
- Width: 455 mm
- Height: 219 mm
- Weight: 4700 g
- Transmission: 4WD Shaft Driven
- Motor Type: 2050kV 2-6S 4-pole brushless motor
- ESC Type: Waterproof 7.2 - 22.2 V brushless - programmable with LiPo cut off
- Servo Type: Digital - Metal Gear - 20 Kg Torque
- Max. Speed: 110+ km/h
- Required to complete: 4 x AA batteries, 2S-6S LiPo battery with XT90 connector, LiPo Charger
