Description

The Ultraflush cutting shear cuts small or soft material with virtually no "pinch". It leaves a finished or near finished surface. CUT DIFFERS FROM THE 410T only in terms of smoothness, not in terms of how closely it will cut against an adjacent surface.

FEATURES: Micro-shear blade by pass and minimal outside bevel. Light touch spring returns shears to its original position after each use. The orange rubberized handle provides good gripping and comfort for precise control.

INCLUDES: One 410A Ultraflush Cutting Shear (4")

COMMENTS: Use ONLY on Soft Materials OR it will cause scarring on the edges. ir/jl

BOX DIMENSIONS: 3.63" W. X .38" H. X 8.00" L. **BOX WEIGHT:** .13 LBS.
