Description

This is a Tube of Zap Goo Adhesive and Sealant by Pacer Technology.

FEATURES: All-purpose adhesive and sealant. Bonds wood to fiberglass, metal to wood, plastic to metal, just about anything to anything with a strong flexible bond. An excellent adhesive for today's high tech composite airplane, boat, and car hobby products, and great for all of those fix-it, mend-it, seal-it, and stick-it jobs around the house. The excellent shock resistant flexible bond means your parts will stay put even when subject to high vibration and extreme shocks. Great for craft work, including wood, clay, plaster, glass and fabrics. Takes 24 to 36 hours to full cure and reach maximum strength. Handles in 1 to 2 minutes. Dries clear. Remains flexible. Works where others won't! Zap Goo bonds can be cut with a razor knife.

INCLUDES: One Tube of Zap Goo One Applicator Nozzle

SPECS: Net Weight: 1oz (29ml)

COMMENTS: Highly flammable! Contains Aliphatic petroleum distillate and Propyl acetate. kr12/13/01 ir/kh

BOX DIMENSIONS: 3.75" W. X 1.50" H. X 8.00" L. **BOX WEIGHT:** .23 LBS.
