Description

Cross-RC kits are premium vehicles intended for the most discriminating R/C modeler who demand the utmost in quality and precision. Available only in kit form, these vehicles require the addition of radio, servo, ESC, and battery. The FR4-series include clear polycarbonate bodies, LED lights, 35T brushed motors, aluminum coil-over shocks, and more. See the PDF file for a feature comparison of each of the FR4 models.

Shown assembled and painted for display purposes only - Requires assembly
