Description Everything included!

Small in scale but monstrously fun! This no-nonsense pint-sized monster truck looks great with its eye-catching graphics, and drives smooth thanks to its powerful electric motor and capable drivetrain.

The included 2.4 GHz transmitter gives you complete control through and over obstacles with ease! With the increased ground clearance and rubber tires, the MT28 handles like no other vehicle in its category.

When your offroad thrills exhaust the vehicle's integrated battery, the convenient built-in transmitter charger makes it easy to get back to full power in less than an hour. A built-in rechargeable battery and 4 AAs are already included in the box! Just charge and drive!

Features:

Everything included in the box -- just charge and go!

2.4GHz 2-channel transmitter

Integrated ESC/Receiver Unit

Integrated proportional servo

Team Associated body graphics already installed
