Description

This TAMIYA R/C model assembly kit depicts the Citroen 2CV. The kit features a highly realistic recreation of the body, modified for rally races, and based upon a dedicated rally chassis in the form of the M-05Ra.

Based on the front wheel drive M-05 chassis, the rally-tuned M-05Ra chassis features a lightweight, narrow, durable, and an easy-assembly semi-monocoque resin frame. The 4-wheel independent double wishbone suspension is equipped with specially designed hub carriers and F/R uprights to increase ground clearance by 5mm. The front skid guard, side guards, and rally block tires are also included to allow you to enjoy both gravel and tarmac driving.

Features:

- 1/10 scale R/C model assembly kit.
- Polycarbonate body is paired with separate bumper and side mirror parts, plus new depictions of a recovery ladder and attachment bracket.
- Wheels are paired with rally block tires.

- Based on the front-wheel drive M-05 chassis, the rally-tuned M-05Ra features specially designed hub carriers and front/rear uprights to increase ground clearance by 5mm. Front skid guard and side guards are also included.
- The chassis is based around a lightweight, narrow and durable semi-monocoque frame, and is at home both on gravel and asphalt.
- Includes 540 motor.
- Includes Tamiya TBLE-02S ESC (electronic speed control) Capable of running sensor brushless motors and brushed motors alike. (21.5 Turn BL motor limit) (23 Turn brushed motor limit)
- Requires: 2-channel radio, steering servo, 7.2-volt battery pack & charger, and Tamiya PS paint.
- Wheelbase: 239mm.
