Description

Reedy's Pro LiPo and LiFe RX/TX batteries feature high capacities and durable construction, which make them perfectly suited for use as receiver batteries. They are also a long-life alternative to NiMH and alkaline batteries in a variety of transmitters.

A standard power plug fits directly into your transmitter or receiver/switch harness while a XH balance connector allows for simple balance charging.

Battery technology continues to progress and Reedy is proud to bring improved performance to the masses.
