Description Team Associated's 1/14 scale Reflex 14B 4WD electric buggy comes out of the box already assembled, with a Reedy Power brushless speed control and motor, high-torque digital steering servo, and 2.4GHz radio system. With all that power at your disposal, the buggy's design effortlessly channels it into 4wd fun! The adjustability offered by the turnbuckles, caster blocks, and rear hubs make the Reflex 14B ready for any terrain you can throw at it. Additional features include three sealed differentials, aluminum steering rack, and lightweight aluminum center driveshaft. By adding a battery pack of your choice to the Reflex 14B RTR, you can now have big performance in a small-scale Ready-to-Run package!

Features:

High-Torque Digital Servo with spring-style servo saver
Powerful Reedy 4500kV Brushless Motor
Water-resistant high-power Reedy brushless speed control with T-plug
Three sealed differentials
Threaded, coil-over shock absorbers
12mm drive hex

Specifications:

Length: 304mm (11.97in)
Width: 202mm (7.95in)
