Description Ready-To-Run 1:10 replica of Northrup Fabrication's Trophy Rat is wrapped around the chassis and engineering of the 9-time R.O.A.R. Short Course National Championship-winning truck.

The truck features a water-resistant high-power Reedy brushless speed control and 3300kV brushless motor, a 2.4GHz 2-channel radio system as well as a DVC (Dynamic Vehicle Control) receiver unit with built-in adjustable digital gyro which allows vehicle stability to be adjusted to flow with the terrain. A Reedy metal-gear digital high-torque servo and LED lights front and rear round out the Trophy Rat!

The suspension has an adjustable blue anodized aluminum V2 12mm big bore coil-over shocks. The gearbox comes with a heavy-duty sealed-gear differential and externally adjustable V2 slipper clutch. 81mm CVA driveshafts increase traction and chassis support. Hex-drive wheels come standard on the Trophy Rat with realistic off road wheels and tires to keep the truck gripping the ground.

### Features:

2.4GHz 2-channel radio w/ DVC (Dynamic Vehicle Control) receiver; featuring built-in adjustable gyro

High-torque, metal-gear Reedy Servo with spring style servo saver

Powerful Reedy 3300kV Brushless motor

Water-resistant high-power Reedy brushless speed control with T-plug connector and LiPo low voltage cutoff

Realistic Method Wheels with 12mm front and rear hex-drive nuts

Four integrated LEDs included, 2 front, 2 rear

**Specifications:**  
Length: 481mm (18.94in)  
Width: 282mm (11.1in)  
Wheelbase: 322mm (12.68in)  
Weight: 1834g (4.04lbs)
